

# SAT by MBA

Destined to Succeed.

SAT by MBA Learning Center was founded by two MBAs with long-term vision. The program director is a college professor, holds a Ph.D. degree in English, and has created a unique SAT learning strategies for our students. SAT by MBA offers you the ultimate solution to advance your SAT scores efficiently and effectively. Our goal is to help you get on your academic path in a time-conscious way. If you would like to know how, please attend one of our open houses.

We have five bright and spacious classrooms, comfortable waiting room for parents and, more importantly, an outstanding teaching staff. In addition to the Ph.D. program director as our tutors trainer, we have on our staff Ivy League MBA/BAs, law school graduate/licensed attorney, and experienced SAT/ACT/GRE teachers. We offer one-to-one private tutoring and 4 to 6 small group classes. Our instructors are also experienced in tutoring elementary and middle school students in all subjects. While helping struggling students is one of our goals, we also encourage advanced students to achieve higher goals, because "Knowledge is Power". Equip yourself well today before tomorrow's challenge.
